PROFESSIONAL SUMMARY

Recent Information Technology (Computer Networking) graduate, with a strong passion for cybersecurity, cloud computing, and network security. Hands-on experience with Microsoft Azure, Windows Server 2025, Kali Linux. A problem-solver with a strong work ethic and a collaborative mindset.

EXPERIENCE

Central University of Technology

Student Assistant (Networking & Digital Literacy)

Bloemfontein, Free State

February 2024 – November 2024

- Provided technical support by ensuring computer laboratories and networked systems were fully operational prior to academic sessions.
- Assisted with basic system administration tasks, including data entry, system checks.
- Mentored over 160 students in networking and programming concepts, improving practical lab completion rates and technical comprehension.

EDUCATION

Advanced Diploma in Computer Networking

Central University of Technology

Bloemfontein, Free State

Completed: December 2025

- Relevant coursework in Research methods, Information security and obtained an average of 73.8%.

Diploma in Computer Networking

Central University of Technology

Bloemfontein, Free State

Obtained in December 2024

- Relevant coursework in CCNA, CCNP, software development and software engineering with an average of 67.9%

National Senior Certificate (Matric)

Queens High School

Johannesburg, Gauteng

November 2019

TECHNICAL SKILLS

Operating Systems: Linux, Windows

Networking: TCP/IP, Switching & Routing, VLANs, DHCP, DNS, NAT, Firewalls, DMZ, Remote Access, BGP, OSPF, EIGRP

Cybersecurity: Incident Response, Digital Forensics, Malware Analysis, Cryptography, Bash Scripting, Penetration Testing Fundamentals

Programming Languages: C#, Python, HTML/CSS

Frameworks: ASP.NET Core, Entity Framework Core, Razor & Blazor

Database: Oracle/SQL Server

Tools: Microsoft 365 Office, Microsoft Azure(VNets, Azure AD), ROS 2, Cisco Packet Tracer, Windows Server

SOFT SKILLS

- Attention to detail
- Problem Solving
- Time Management
- Teamwork
- Organization
- Critical Thinking
- Customer Service

PROJECTS

ASP.NET Core Student Management System ([Link](#))

- Developed a web application with ASP.NET Core MVC and Razor Pages using Onion Architecture.
- Features include secure Identity authentication, Web API integration, and dynamic database generation via EF Core migrations emphasizing Separation of Concerns (SoC).

Network Infrastructure Design ([Link](#))

- Designed a fault-tolerant, production-ready enterprise network simulation in EVE-NG.
- Configured routing protocols including BGP, OSPF and EIGRP protocols with
- Implemented redundancy and security controls to simulate production-grade traffic and high availability

Personal Portfolio Website ([Link](#))

- Built a high-speed static site using Hugo and GitHub Actions for CI/CD automation
- Documented networking and cybersecurity projects and technical challenges.

COMPETITIONS AND ACHIEVEMENTS

SANReN Cyber Security Challenge 2025 - 3rd place ([Link](#))

Awarded 3rd place nationally as part of the team from Central University of Technology, demonstrating advanced skills in Network Security, CTF Challenges and real time Attack and Defense scenarios.

PAICTA Cyber Security Challenge 1st Runner-Up

Outperformed regional teams to win 2nd Place by executing advanced penetration testing strategies against hardened targets and produced a detailed remediation report, simulating a real-world engagement lifecycle.

Cyber 9/12 Strategy Challenge

Developed cyber-incident response and policy frameworks for executive-level decision-making. Integrated legal and regulatory requirements into national-scale cyber crisis simulations.

CERTIFICATES

- | | |
|--|----------|
| ○ Robotics Operating System Course, <i>FH AACHEN</i> | JAN 2025 |
| ○ Azure Fundamentals (AZ-900), <i>Microsoft</i> | OCT 2024 |
| ○ IT Essentials, <i>Cisco</i> | AUG 2022 |
